

Steering Committee

The steering committee (SC) is responsible for shaping the **medium- and long-term** course of the conference series and for making sure that the conference maintains a high scientific and organizational standard.

SC Chairs

Rotem Arnon
Weizmann Institute of Science

SC Chair

Davide Rusca
University of Vigo

SC Vice-Chair

SC Members

Anne Broadbent
University of Ottawa

SC Member

Charles Lim
National University of
Singapore

SC Member

Davide Bacco
University of Florence
SC Member

Joseph Lukens
Purdue University

SC Member

Kai-Min Chung
IIS, Academia Sinica

SC Member

Sheng-Kai Liao
University of Science and
Technology of China

SC Member

Core updates & discussion topics

1. In-person requirement

- Up to unforeseen and exceptional circumstances (including visa issues), authors of accepted papers are required to present their work on-site
- Submissions may be **withdrawn** otherwise
- Goal: maintain a fostering in-person conference (not just a line in the CV)

Core updates & discussion topics

2. Barrier alleviation fund

- The SC can supply some funding to help researchers overcome logistical or accessibility-related obstacles that may limit their ability to attend the conference.
- Examples: extra costs due to caregiving responsibilities or accessibility modifications.
- Not intended to cover for lack of research funding, but for things that standard grants cannot cover (and independent from “student travel support”)
- Started this year, but no eligible requests received
