- 50k from NSF QLCI
→ Free online registration for students
- 40k from CIFAR & Caltech
→ Over 40 student travel grants, from 400\$ to 1500\$

A big thanks to

Ángela Capel Cuevas

Fang Song

Penghui Yao

Discussion points

- **Hybrid is expensive and hard** (uncertainty, synchronization, cost)
 - But we should still allow giving talks remotely when needed
- **QIP is getting large!**
 - Need a lot of support on the ground
 - Rotating structure induces high startup cost each year: steep learning curve
 - Strict budget balancing is very delicate
- Being chair of SC at the same time as local organizer is *not* helpful
- Use a professional email account!

QIP bids

Report from the PC chairs

David Pérez-García

Stacey Jeffery

Discussion points

- **Reviewing process**
 - Large PC? Keep co-chair?
- **Number of submissions**
 - # Accepted papers? 1-2-3 parallel sessions?
 - Acceptance rate vs quality?
 - Accept all posters?
- **Should we create a professional society ?**
 - Ensure some continuity. Handle budget over/under-flows. Pay bills
- **Changes to structure of steering committee (SC)?**
 - 4-year terms. 2-year chair (rotate with vice-chair?)
