

Business meeting TQC2024

Submission and program

Frédéric Magniez (chair) and Alex B. Grilo (co-chair)

Call for submissions

Two tracks

- A. With Proceedings track (talk + proceedings)
Full version of the paper
- B. Without Proceedings track (talk only)
3-page extended abstract + Full version of the paper

Server

Easychair

Modifications from previous years

- 1. Track names:
Conference track -> With Proceedings track
Workshop track -> Without proceedings track
- 2. Co-chair could not submit. Should we add this to the chart of TQC?

Submission + issues

Submission deadline

22nd of February + 1 day extension

Issues

Overleaf went down on the 23rd 3h before submission deadline

5-10 papers with the wrong submission format

Decision of PC chairs: do not consider these submissions

Tip

Always submit a sub-optimal version in advance and then update later (as many times as you wish)

Reviewing - conflicts

Conflicts

Hard conflict with a submission if

1. You are an author.
2. A family member or close friend is an author.
3. A Ph.D. advisor or advisee (no time limit) is an author, or a postdoctoral or undergraduate mentor or mentee within the past five years is an author.
4. There are authors with the same affiliation.
5. An author is a frequent or recent collaborator whose work you believe you cannot objectively review.
6. Any other case where you feel you cannot make a reasonably unbiased assessment (e.g. a competing submission).

Soft conflicts: discretion of PC member/reviewer if they can provide an unbiased opinion

Reviewing and discussion

Review phase: February 28th to March 28th

No more than 25% of papers in each PC member's batch non-negative scores

Discussion phase: March 29th to April 13th

1. March 29th: Decide clear accept/reject and ask for confirmation
2. March 29th - April 4th: First round of discussions
 - remove limit on the scores
 - give special attention to submissions with discrepancy on scores
3. April 4th: New batch of accept/reject
4. April 4th - April 10th: Second round of discussions + start championing
 - champion 1 paper in the batch and 1 paper outside of the batch
6. April 10th: New round of accept/reject
7. April 10th to April 12th: voting phase
8. April 13th: counting votes and accept the last batch of papers

Notifications: April 15th

Reviewing and discussion (II)

With and Without proceedings paper treated equally

We could achieve required number of papers for the proceedings

2 Outstanding paper awards (voted by PC members)

"Multi-qubit Lattice Surgery Scheduling" and "Stochastic error cancellation in analog quantum simulation"

Posters

Process for posters

Accepted as posters non-accepted talk submission and poster-only submissions that were

- A. not wrong
- B. in scope
- C. in the right format

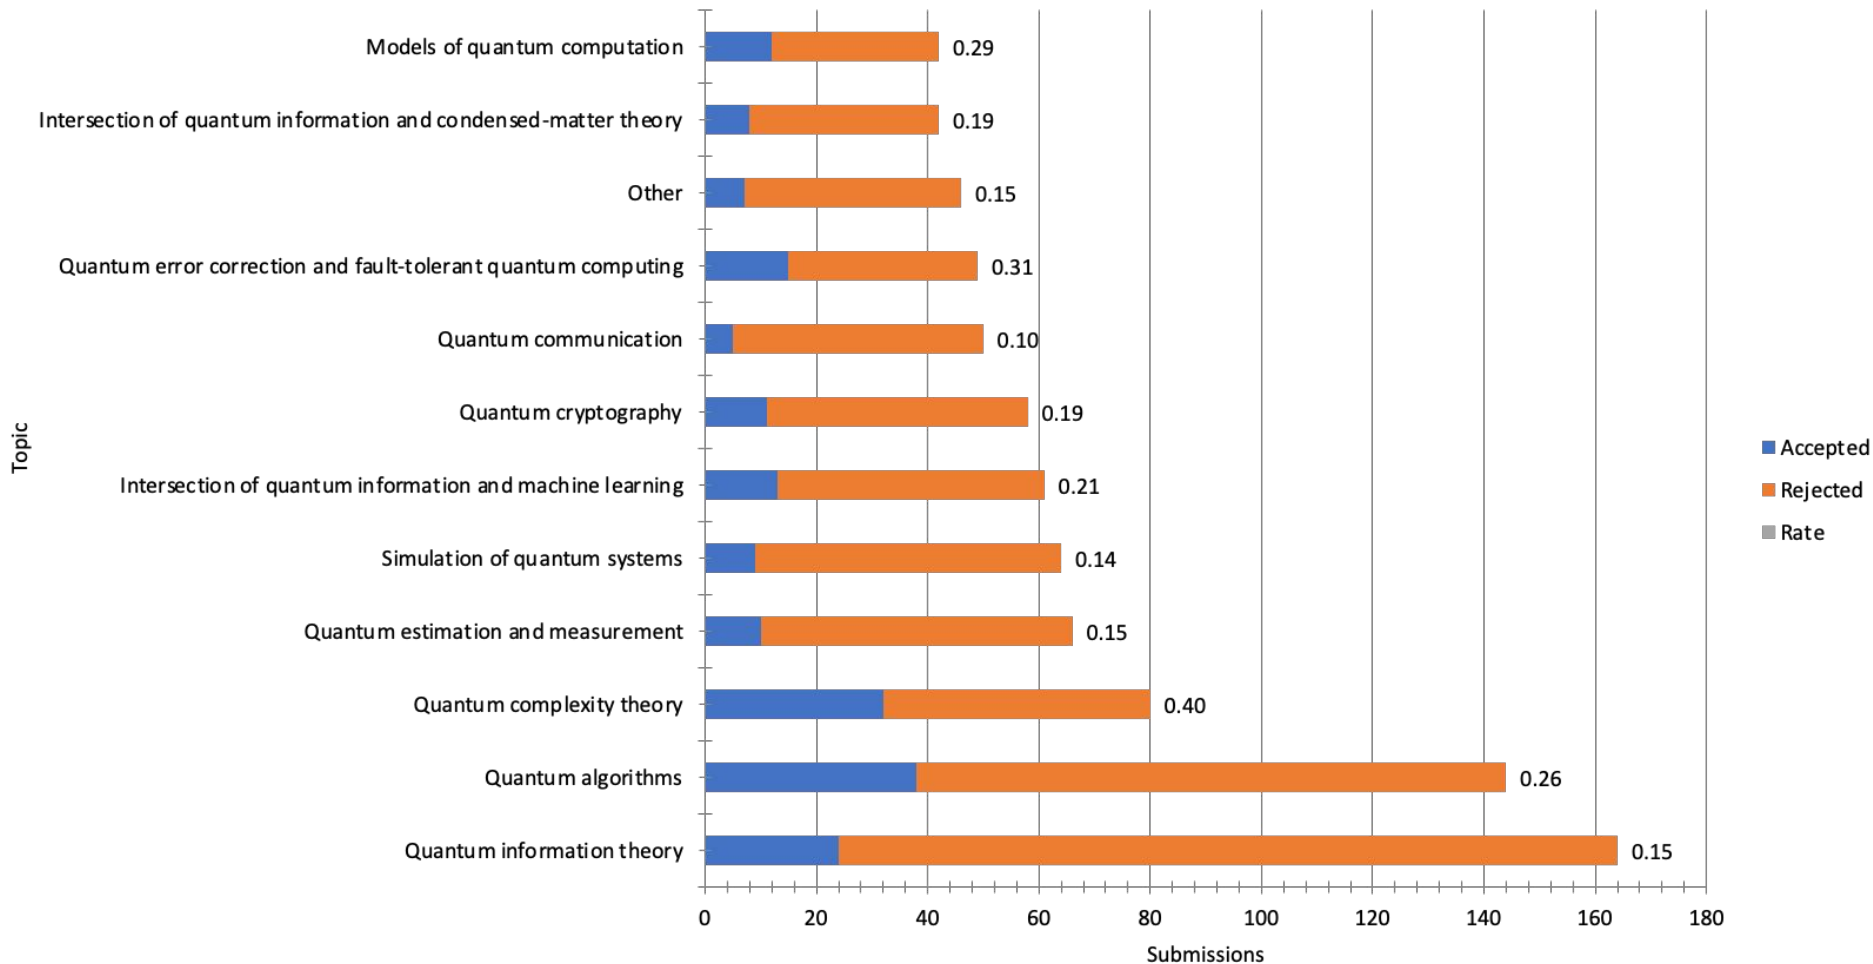

Outstanding posters

Talk submissions that were almost accepted were flagged as outstanding posters

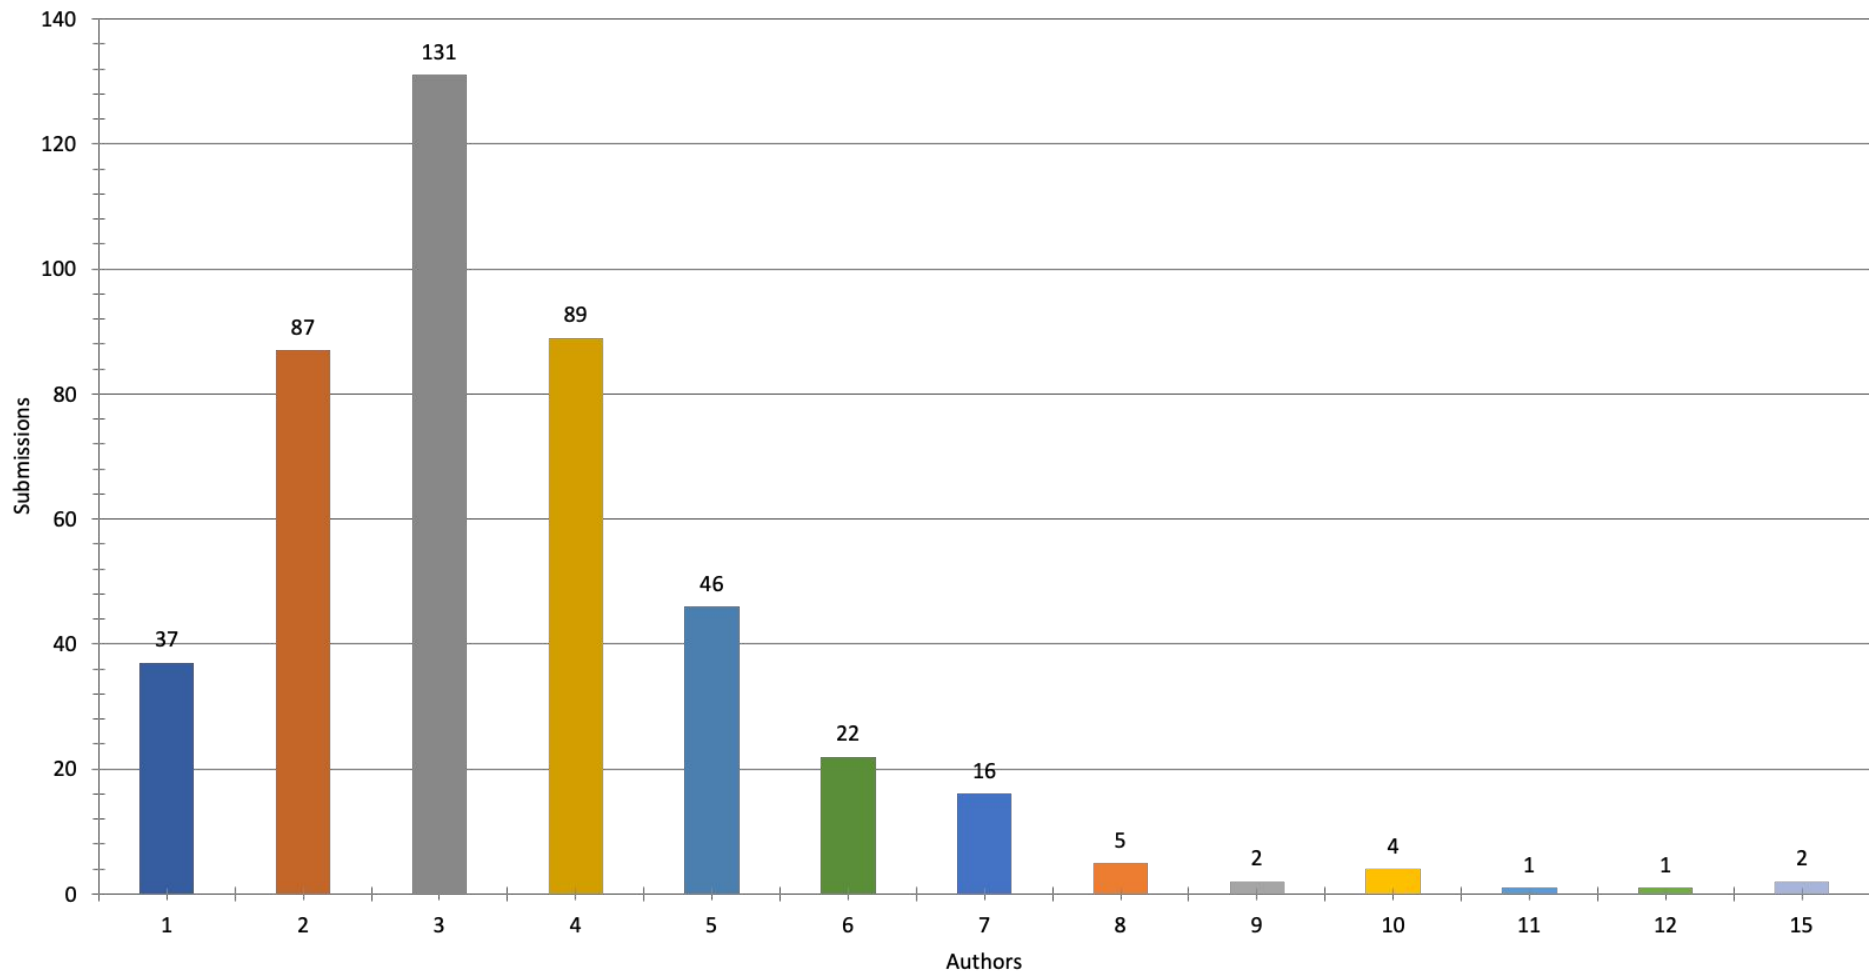

Statistics

- 460 submissions (307 submissions in 2023)
 - Track With Proceedings: 44
 - Track Without Proceedings: 416
- 3 reviews per papers
 - From 45 PC members and 437 subreviewers
 - Average load: 31 papers per PC member
 - Timeline: Assignment (4 days) - Reviewing (1 month) - Discussion (2 weeks)
- 92 accepted for talks
 - Track With Proceedings: 12 with 2 outstanding paper prizes
 - Track Without Proceedings: 80
- 19 accepted for outstanding posters

Number of Submissions and Acceptance Rate by Topic

Number of Authors Per Submission

Slawomir Rosiek, OIST

Yukari Yosedo, OIST

Volunteers

International organizers

Lídia del Rio, Squids and University of Zurich

Nuriya Nurgalieva, Squids and University of Zurich

Discussion

- Should we keep the new track names?

Conference track -> With Proceedings track

Workshop track -> Without proceedings track

- Add in the chart of TQC that co-chair cannot submit?
- Single submission format for the two tracks?
- How flexible should we be with submissions in the wrong format?
- Should we keep "Outstanding paper prize"?
- Should we have "Outstanding posters"?
